

Misleading “Poll” Calls

By Susan Street, September 26, 2018

Did you get the “polling” call yet? Already big money is trying to get its hands on our election here in Benicia. It was no poll, it was propaganda for one candidate, under the guise of a poll. Giving leading statements and then asking if you agree or disagree is a way to influence you to vote for someone in particular.

This is outside money trying to influence our elections. Benicia has a clean, and transparent election policy and clearly outside corporations or PACs don’t meet this. Outside money is trying to sway our election. Who would benefit from this?
