

I'm voting for Kari Birdseye

By Constance Beutel, September 26, 2018

I'm voting for Kari Birdseye for Benicia City Council because Benicia deserves a voice of reason and an individual who is able to look at the data and trends and make sound decisions on policies and actions that will impact our daily and future lives.

Kari, through her commitment to community service, especially her service on the Benicia Planning Commission, has deep insight to the concerns and opportunities facing our City.

Benicia has a "maturing" (or hopefully gracefully "aging") population that will bring new needs and possibilities to our community. As housing, and affordable housing are issues facing the Bay Area, we will need someone to make good decisions on insuring that all segments of our citizens are addressed through city services. With environmental realities including a year-round fire season and increasing pollution from Bay area refineries and transportation, our children and seniors who are especially vulnerable to poor air quality will need Council voices and votes to protect their health.

Benicia needs an advocate in promoting the potential of our City's contribution to a sustainable community and vibrant arts, culture and food destination. Kari Birdseye is that advocate.

Constance Beutel, EdD
