

## **Kari Birdseye: dedicated & experienced**

By June Mejias, September 28, 2018

I have been walking voting precincts in Benicia in support of Kari Birdseye running for city council. I have met so many people who feel that she will combine her dedication to the health and well-being of our city and promote positive business growth that is always vital in maintaining a city's financial success!

I believe Kari's experience serving as chair of the Benicia Planning Commission and her personal working business history, beyond our city, has provided her with a wide level of expertise that will benefit our citizens.

I know she will be a strong, positive representative on the council!
